

LINEBAUGH OFFICE COMPLEX

Tampa, Florida

Working with developer Jeff Bardin, LDCi was the architect of record for the Old Town Linebaugh Office Complex. This new construction development includes three separate office buildings – two 2,000 square-foot bungalows and a 4,000 square-foot building. LDCi worked closely with the developer to bring craftsman-style design elements and a variety of architecture styles to this new office space. From site planning to material and color selections, LDCi delivered an end product to the developer that was ready to be sold and inhabited by Tampa businesses.
