

THE GREATER BRANDON CHAMBER OF COMMERCE

Brandon, Florida

LDCi was the space planner and interior designer for the Greater Brandon Chamber of Commerce’s two-story, 20,000 square-foot building. LDCi worked closely with the architect of record Dykes Johnson to ensure the building’s interior complemented the exterior color palate. The attention to architectural detail given to the Brandon Chamber of Commerce’s new home set a standard for new buildings in the town center.
