

MOFFITT CANCER CENTER AYA LOUNGE

Tampa, Florida

LDCi worked with Moffitt Cancer Center to create the first AYA Lounge in the state of Florida and one of the first in the country. This lounge is a space for young adult cancer patients to take a break from treatment to socialize and relax with other patients. LDC converted existing conference space at Moffitt Cancer Center into a 450-square foot hangout for patients to watch movies, play video games and grab a snack.
